Geo. Darling,

Care of Peck & Mills, Chicago, Ill.
Lots of people want red tag sale to last
until after pay day. Answer.

J. J. Trelkeld.

SO THE RED TAG SALE WILL LAST UNTIL FEB. 18, 1905.

This sale has proven a wonderful success and since Mr. Darling went east
so many people have asked why the sale did not last longer.

I decided to meet their desires if possible.

THE RESULT IS SHOWN ABOVE.

20 to 33 1/2 Per Cent Discount, Cash Or CREDIT.

J. J. Trelkeld for

Geo. Darling.

MARSLAND.

Dr. Bellwood of Alliance was here Monday as medical examiner of applicants for life insurance.

Mrs. L. Snow returned home from Alliance Wednesday after a month's visit in that city.

Mrs. H. L. Richardson returned to Wyoming on Thursday after a visit with her parents Mr. and Mrs. C. Richey of this place.

Henry Brundage came up from Mitchell last Thursday.

John Hickey came down from the ranch Saturday bringing his daughter Miss Mary who began a term of school in Dist. 61 Monday. Miss Hickey is a beginner in pedagogy having taught one term in this district and gave such good satisfaction that the board employed her for a second term.

Mr. Getter, a life insurance agent was domiciled at the Commercial all last week during the savage weather. We hear that he was the getter of a few victims.

Miss Laura Owen who has been acting in the capacity of night operator at this place for some time, was called to Alliance Sunday. A young man whose name we have not learned is operating in her stead.

That the population of this place is on the increase, is evidenced by the arrival of a daughter at the home of our blacksmith Thomas Squibb on the evening of the 4th inst.

The ice men from a distance who were running teams on the ice works here have all gone home the contracts having been filled. The season has surely been a successful one for the owner. Mr. Gregg as there was not a break in the work from start to finish.

C. H. Richey is arranging to build an addition to his hotel which will be 25x25 feet. Perhaps our little comment on the need of more hotel accommodations had the desired effect. By the way, another traveling man had to put up with depot accommodations the other night.

It's quite funny what a change in meaning is caused by one little typographical error. Last week we said that Carl Tollman drove a fine mule team and the compositor made it read a five mule team.

There was a "hot time in the old town" last Friday evening when the B. & M. pump house went skyward in smoke and flames. It is not known how the fire started, and it was under such headway when first noticed that nothing could be done to save the building. The windmill tower stands virtually on one leg the other three having been burned and damaged so badly as to render them almost useless. Mr. Newlan a B. & M. employee and

windmill doctor came up on Sunday but refused to ascend the tower which is not surprising when it is remembered that from this very tower that gentleman stepped through the manhole and after making two complete summersaults lit on the ground fifty feet below, breaking a leg and the wonder is that he did not break his neck. This happened some two or three years ago, but the time is not so far removed but that the gentleman has a very vivid recollection of at least one important episode in his life. Other workmen are on the ground preparing to lower the wheel and rebuild the tower. The engine and pump has been set-up and put to work without so much as a board to cover the head of the operator. Workmen are expected soon to rebuild the structure.

Roy Richey accompanied his sister Mrs. Richardson as far as Crawford Thursday, returning Friday on the belated 42 which arrived about 5 p. m.

Peter Allison, proprietor of the O U ranch came down Saturday remaining at the Commercial until Monday.

Miss Beth Thomas has gone to Alliance to have an operation performed for tonsillitis.

The stove in the college went on a strike Monday morning and the pupils were given a half holiday. Drs. Byers and Sullenberger were called in and after consultation administered an emetic. The thing went off a tooting.

Section foreman Hunzicker had hard work during the fire Friday to save the section house and out buildings. The wind being in the south, burning shingles were carried several rods, many of which fell on and around the buildings.

Several recruits for Burk's extra grading gang arrived on 41 Monday and were taken to the works by C. H. Richey.

The section force at this place has been cut down to two men.

Dougal McMillan, one of the first settlers on north table was in town Monday. He says sleighing is fine on the table, the snow being smooth and level.

The Man With a Cow.

Do you know our price for butter fat first half of February, is 28c per pound? Do you know this means \$1.12 to \$1.25 per hundred for milk?

Do you know during the winter of 1902 we paid as high as 27c for butter fat; and 25c in 1903?

Do you know these are better prices than dairymen of New York, Wisconsin, and other old dairy states who follow dairying exclusively, are realizing for their milk produced on farms worth \$100 and more per acre?

Do you know this beats raising dollar wheat or fifty-cent corn? Do you know we paid more money to the farmers of Nebraska in 1904 than all other creamery companies operating in the state?

Do you realize what you are losing if you are not the owner of a DeLaval hand separator, and one of our patrons? Do you know that we sell the DeLaval, the best separator on earth? Do you know that out of a total of 20,000 separators used in Nebraska 15,000 are DeLaval's?

Do you know, if you are not one of our 20,000 patrons, that it will be to your interest to call on our representative and talk this over?

BEATRICE CREAMERY CO.
We sell separators on easy terms.
